Stan Lee Presents
Marvel Vision #3
March 1996

Okay, let's talk about comics! Why do you read them? Why do you collect them? Why do you write story outlines during class, when you should be concentrating on Trigonometry or some other mind-numbing subject? Why do you sit and doodle out pictures of fantastically muscled men and curvaceous women during conference calls or budget meetings?

Well, as far as I was concerned, when Algebra and the like tried to eat my brain, I fought back. Comics are fun!

Comics were always one of those secret little vices that I had when I was growing up. That and chocolate. Comics were and still are a great way to go someplace different, have a little adventure, save the world; you get my meaning. By turning a few pages you can visit another state, another country, or even another galaxy. Who needs one of those clumsy rockets anyway? You're just going to get bombarded by those dreaded cosmic ray thingies.

What was the purpose of all this? Nothing and everything. Get out of the house, get some comics, get comfortable and read. Don't pack them away in your 3-ply mylar wraps and store them in the mercury vapor-lit vault in the basement. Read them first. Then if you want to do all that other stuff, go ahead. Comics are fun. Read them. Enjoy them.

I'mdone.

See ya in the funny pages.

AVENGERS BATTLE ARMY UNDER *MYSTERY* DOME

By Ben Urich

A mysterious dome-like structure enclosed Manhattan last night, an event which investigators are linking to the subsequent city-wide blackout and an invasion by unidentified troops. Authorities attribute both events to the actions of the military organization which stormed government buildings, only to be engaged by members of the superhuman team known as The Avengers.

The translucent glass-like wall appeared suddenly, cutting through the bridges connecting Manhattan to the greater New York metropolitan area. Pedestrians, subway cars, and automobiles caught in the path of the dome were embedded in the unknown material. Scientists, baffled by the development, are also puzzled by the ensuing energy outage, which affected all machinery, such as helicopters and buses, as well as structures powered by the city's electrical system.

In the midst of the blackout, Captain America, Thor and Iron Man, who have not served simultaneously as Avengers for nearly a decade, battled the army which had overrun the streets of the city.

THE ALLIANCE BOMBS WHITE HOUSE AND KREMLIN

By Bill Rosemann

A terrorist group known as The Alliance shocked and outraged the world community last night by bombing government buildings including the White House and the Kremlin. President Clinton and his family were not present at the time of the blast, but there are reports of fatalities within the House staff. Information from the former Soviet Union points towards multiple casualties and fatalities. This unprovoked attack, which authorities believe is not connected to the current situation in New York City, falls on the heels of last week's bombings of Mount Rushmore and the Great Wall of China.

"This was the act of a cowardly and depraved group. Terrorist acts will not be tolerated by the U.S. government, especially on our soil. Let me assure you, the criminals who struck in this heinous manner will be prosecuted and punished with extreme force," President Clinton said during a press conference yesterday.

"We do not know who they are, what nation they pledge allegiance to, or what their agenda is. World tensions have escalated, there is much finger pointing, and some governments are bracing for world-wide retaliatory strikes," explained political sociologist Robert Backlund.

ULTRAFORCE

THE NEW HEROES ON THE BLOCK, TRASH CENTRAL PARK

By Ken Elliot

Central Park suffered extensive damage yesterday in a battle between super humans involving Spider-Man, the Green Goblin, the Black Knight and group of unidentified costumed individuals who called themselves UltraForce. Bystanders reported that a self-professed "super-villain" led the previously undocumented group on a destructive chase through Manhattan.

"It appeared as if those masked people were on the same side of the law as Spider-Man and Green Goblin—however, which side that may be is debatable. Although it's hard to separate the players in a battle like this, I believe they were of the non-threatening variety," commented police captain Philip Betbeze.

"One guy had a cape and these huge—and I mean gigantic—arms. This other man wore yellow-and-black armor and shot some sort of energy out of his hands. There was also a woman with silvery skin who was waving around a staff. The last guy had moldy green skin with bones sticking out—he looked like a zombie. It's getting crazy, you need a scorecard to keep up with all these people," said midtown resident John Dokes.

X-FACTOR EXAMINED

-U.P.I.

Grassy Knoll, a political watchdog group, today announced the launch of their investigation of the government-sponsored mutant team known as X-Factor. Grassy Knoll raised concerns over the addition of Mystique, a convicted criminal, to the controversial strike force.

"Mystique once led The Brotherhood of Evil Mutants. Is this the type of person we want working with full government sanction? And what is Wildchild, a Canadian operative, doing on the payroll of a United States sponsored organization? Most disturbing of all, we've heard word that Sabretooth, the psychopath who just went on a documented rampage, may be joining X-Factor. This covert militia is out of control. We intend to hold our elected officials accountable," said Todd Anderton, Grassy Knoll's spokesperson.

SPIDER-MAN: MURDERER?

An Editorial by J. Jonah Jameson

There is a skeleton in Spider-Man's closet.

As the rain fell hard last Tuesday morning, members of the Wrecking Crew Demolition Company uncovered human remains in an abandoned factory. Clinging to the skeleton was a swath of charred cloth—remnants of that garish costume of the vigilante who calls himself Spider-Man. While the police have yet to comment, I dare to take a stand for justice: this newly garbed Spider-Man who now swings above our city's streets killed and replaced the original web-slinger.

How can I boldly make this assertion? First, the loose cannon claiming to be Spider-Man has changed his costume after years of wearing the same oufit. Why now after all this time? Perhaps this change is more than a bow to the whims of fashion—perhaps this is a call for attention from a disturbed individual—perhaps someone else has claimed the mantle of Spider-Man.

Secondly, where there were once two web-slingers threatening our fair city, now there is but one. For a few weeks, the Scarlet Spider swung side-by-side with Spider-Man. Possibly, after his well-documented rampage, this Scarlet psycho craved a larger piece of the pie and squashed his arachnid ally.

The evidence is there. Once there were two, now there is only one—and this one has suddenly discarded his trademark costume. If the astute step back and study thesituation, as I have, these seemingly unconnected events point towards a disturbing development. Be assured that, this publisher will not rest until the bright light of truth exposes this dark lie of evil.

foxfire
from the ashes of the

phoenix resurrection, a star is born

WHEN THE DUST CLEARS AFTER THE PHOENIX RESURRECTION, THE ULTRAVERSE WILL NEVER BE THE SAME AGAIN. THE PHOENIX BLAST DEVASTATED EARTH AND ROCKED ULTRAS FROM POLE TO POLE. IF YOU THOUGHT THE ADVENTURES WERE GONNA MELLOW OUT—YOU THOUGHT WRONG! THEY'RE JUST GETTING STARTED!

A DAMAGED EARTH IS FIRST ON THE HIT LIST FOR A RACE OF ALIEN CONQUERERS KNOWN AS THE PROGENY. HEARTLESS, DESTRUCTIVE, AND GENOCIDAL, THEIR NEXT STOP MAY BE YOUR HOMETOWN. ONLY ONE THING STANDS BETWEEN THEM AND WORLD DOMINATION—A SHY, TEENAGE GIRL WHO WIELDS COSMIC POWER OF UNIMAGINED PROPORTIONS, CARRIES THE FATE OF THE EARTH ON HER SHOULDERS, AND STILL WORRIES ABOUT WHAT SHE'S WEARING TO SCHOOL TOMORROW. THE NEWEST AND SEXIEST ADDITION TO THE ULTRAVERSE, HER NAME IS FOXFIRE, AND SHE MAKES HER DEBUT IN FEBRUARY'S FOXFIRE #1!

IN THE AFTERMATH OF THE PHOENIX RESURRECTION, FOXFIRE FINDS HERSELF WITH SOME STRANGE NEW ABILITIES. ACCIDENTALLY POWERING UP IN RESPONSE TO AN UNEXPECTED THREAT, YOUNG ROSE AUTUMN DISCOVERS THAT SHE CAN FIRE ENERGY BLASTS, LIFT OIL TANKERS, FLY, AND COVER HER BODY WITH AN IMPENETRABLE LAYER OF METALLIC ARMOR. NEW TO THE ULTRAHERO BIZ, BUT EAGER TO LEARN, FOXFIRE TAKES ON SOME TOUGH ADVENTURES, AND CHALLENGES HER EQUALLY CREATIVE TEAM TO LEAVE READERS STUNNED.

HOT ON THE HEELS OF SCRIPTING THE 'PHOENIX RESURRECTION' SAGA, WORDSMITH IAN EDGINTON BRINGS HIS UNIQUE STORYTELLING TALENTS TO FOXFIRE. WITH HOT UP-AND-COMING ARTIST KEVIN WEST DRIVIN' THE PENCIL,

FOXFIRE'S SURE TO BE WORTH THE $1.50 COVER PRICE. WEST IS ALSO JOINED BY RENOWNED PAINTER GLENN FABRY, THE ARTIST RESPONSIBLE FOR THE AWESOME, EYE-POPPING FOXFIRE #1 VARIANT COVER SHOWN ON THIS PAGE.

ENJOYING THE CHALLENGE OF BRINGING THE NEW FOXFIRE TO LIFE, EDGINTON AND WEST HAVE DEVELOPED A CHARACTER UNLIKE ANY OTHER. SAYS EDGINTON, "I WANTED TO TRY SOMETHING NEW WITH SUPERHEROINES. SOMETHING DYNAMIC AND POWERFUL, BUT STILL SEXY. AND I WANTED TO GIVE KEVIN SOMETHING TO KICK DOWN THE WALLS WITH. AFTER A LOT OF REVISIONS, WE CAME UP WITH FOXFIRE. SURE, SHE'S SEXY AND CUTE IN HER HUMAN FORM, BUT WHEN SHE POWERS UP, SHE SAYS ONE THING AND ONE THING ONLY—GET OUT OF MY WAY OR GET BURNED!"

EDITOR HANK KANALZ SAYS READERS WILL FIND FOXFIRE TO BE A TRULY UNIQUE CHARACTER. "WE REALLY WANTED TO STAY AWAY FROM STEREOTYPICAL HEROINES WHEN WE CAME UP WITH FOXFIRE. SURE, WE WANT ACTION IN THE BOOK, BUT WE'RE TRYING TO BACK IT UP WITH SOLID, INTERESTING STORIES THAT LET FOXFIRE'S CHARACTER SHINE AS BRIGHTLY AS HER ARMOR," KANALZ SAID. "FOR INSTANCE, FOXFIRE WAS BRED TO DEFEND THE PLANET, BUT SHE DOESN'T FIND THIS OUT UNTIL THE PHOENIX RESURRECTION TAKES PLACE. HERE'S A YOUNG WOMAN WHO LED A RELATIVELY NORMAL LIFE, ONLY TO HAVE IT TURNED COMPLETELY INSIDE OUT. HOW SHE REACTS TO THAT, AS WELL AS THE PRESSURE OF DEFENDING EARTH FROM THE PROGENY, WILL BE A MAJOR CHARACTER FOCUS."

WITH FOXFIRE'S TWO FORMS COME TWO DIFFERENT PERSONALITIES, AND IT'S BLATANTLY OBVIOUS TO EVERYONE THAT CROSSES HER PATH THAT THESE PERSONALITIES ARE AS DIFFERENT AS NIGHT AND DAY. "SHE IS TRULY A RARE BREED!" EDGINTON COMMENTS." AS A SCRAPPY TEENAGER, FOXFIRE IS CRUDE, ROUGH, AND A CREATURE OF EARTH. BUT AS A GLOWING HERO, SHE IS ANGELIC, MYSTICAL, ETHEREAL AND OF THE AIR." IN HER HUMAN FORM, SHE IS A SEXY TEEN WITH A BITING TONGUE WHO STRUGGLES THROUGH LIFE AS A LONER. IN HER POWERED-UP ENERGY FORM, FOXFIRE IS CONFIDENT, POISED, AND CHILLINGLY LETHAL.

EDGINTON HAS SOME POWERFUL STORIES PLANNED TO MATCH FOXFIRE'S POWERFUL LOOK. IN THE OPENING PAGES OF PHOENIX RESURRECTION: THE AFTERMATH, EARTH TEETERS ON THE BRINK OF DESTRUCTION, AND THE UNSUSPECTING ROSE AUTUMN, AKA FOXFIRE, LEARNS THAT SHE'S AN ULTRAHERO. AS SHE COMES TO GRIPS WITH HER STRANGE NEW POWERS, SHE ALSO REALIZES THAT SHE ALONE POSSESSES THE ABILITY TO DESTROY THE MONSTROUS FORCE THREATENING TO DEVOUR THE PLANET.

FOXFIRE'S ORIGIN IS A MYSTERY, EVEN TO HER. SENT TO EARTH BY AN UNKNOWN FORCE, UNAWARE OF HER ORIGIN AND POWERS, AND NOT KNOWING WHOM TO TRUST, FOXFIRE BURSTS INTO THE ULTRAVERSE DURING THE PHOENIX RESURRECTION: GENESIS. AS HER STORY UNFOLDS IN THE PAGES OF AFTERMATH AND FOXFIRE, SHE'LL DISCOVER SOME INTERESTING SECRETS ABOUT HERSELF AND SOME MAJOR ULTRAVERSE HEROES.

RUMOR IN THE ULTRAVERSE HAS IT THAT SHE'S MORE ALIEN THAN HUMAN. BUT THE HUMAN PART HAD TO COME FROM SOMEWHERE, AND SOME ARE SAYING THAT SHE GETS HER GOOD LOOKS FROM A BLONDE MOVIE STAR WHO SPENDS HIS SPARE TIME FIGHTING CRIME AS A WORLD-RENOWNED ULTRA!

SEARCHING FOR HER ROOTS IN

THE ULTRAVERSE WILL ALSO BRING FOXFIRE CLOSER TO THE EXILES, THE ULTRAVERSE'S FOREMOST RENEGADE ULTRATEAM! THE EXILES HOLD THE ANSWERS TO MANY OF FOXFIRE'S QUESTIONS, SO FANS CAN LOOK FORWARD TO AN ALL-STAR CAST OF CHARACTERS IN FOXFIRE, INCLUDING SOME OLD EXILES FAVORITES.
FOXFIRE WILL HAVE TO DO HER SEARCHING DURING HER SPARE TIME, THOUGH, BECAUSE HER DANCE CARD IS FILLED AS SOON AS SHE RETURNS TO HER HOME AFTER THE PHOENIX RESURRECTION. DESTROYED BEYOND RECOGNITION BY THE PHOENIX BLAST, HER HOME HARDLY LIVES UP TO ITS NAME—AND FOXFIRE'S FATHER LIES DEAD IN THE WRECKAGE. SHE WANTS TO FIND OUT WHO'S TO BLAME! SO DOES ULTRAFORCE, AND THEIR HUNT FOR THE RESPONSIBLE PARTY LEADS THEM STRAIGHT TO FOXFIRE!
THE FOXFIRE SERIES WILL FEATURE AN ENSEMBLE CAST OF CHARACTERS, INCLUDING A BRAND NEW MUSTANG, JACK DANCER, "ASTODON" (TIMMY HALLORAN FROM THE ORIGINAL EXILES), HARDCASE (MMM...) AND A SLEW OF GUEST STARS THAT HAVEN'T BEEN SEEN IN SOME TIME (LIKE SLUDGE) WITH AN ALL-STAR ART TEAM AND AN ULTRAHEROINE UNLIKE ANY OTHER, FOXFIRE WILL BE BURNING UP THE CHARTS IN FEBRUARY!

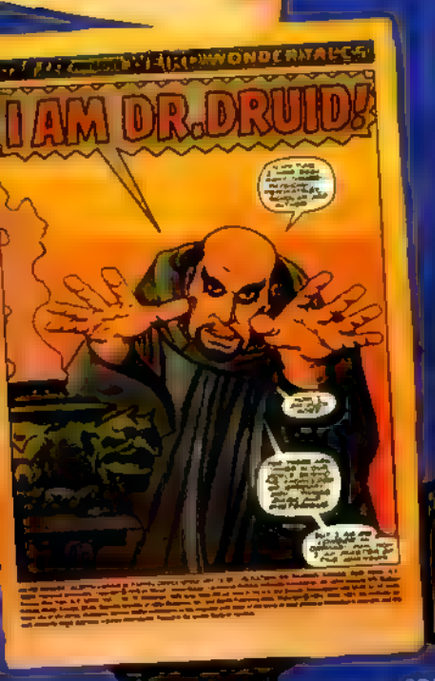
THE MARVEL CHRONICLES CHAPTER 2: 1961

1961 was the year the "Marvel Age of Comics" truly began—with the first modern Marvel super hero comic, FANTASTIC FOUR #1. Cover-dated November 1961, FF #1 was actually the only "Marvel" comic of that year; the Marvel revolution would not gather full force until 1962.

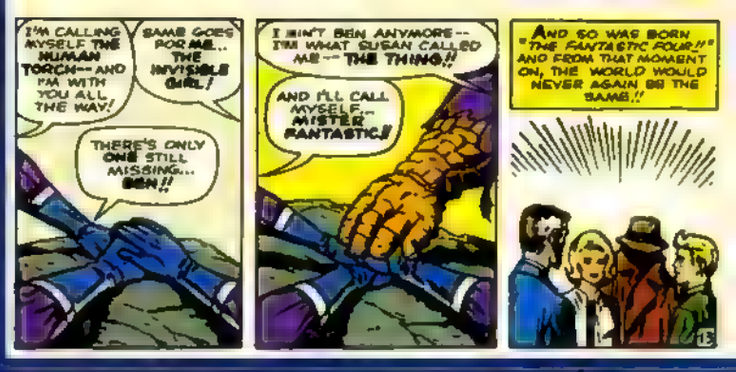


As remarkable as [illegible] innovations were, it also showed its roots in the kind of story material Marvel was already publishing. Most of Marvel's output in 1961 continued the trends of the previous few years, as described in our previous installment (issue #1): science fiction tales and monster stories. The very first Marvel super hero comics of the 1960s represented a transition from these genres, not a total and abrupt break. For example, Stan Lee and [illegible] made their first stride towards the Marvel super hero stories with the "Doctor Droom" series in the first volume of AMAZING ADVENTURES earlier in 1961. In his origin story, Droom was a physician who traveled to the Himalayas in response to a call for help. He found a mysterious High Lama who was apparently dying, and who chose Droom to carry on his war against mystical evils. The Lama magically bestowed upon Droom the mystic wisdom of the East and also awakened Droom's buried knowledge of the lore of his ancestors, the Druids of ancient Britain. In retrospect, Droom's origin was clearly a rehearsal for the origin of Stan Lee and Steve Ditko's Doctor Strange, published a mere two years later.

Although Doctor Droom was cast in the role of a sorcerer, he did not travel into other dimensions or face evil magicians as Doctor Strange would. Instead, Droom filled the role of the usual protagonists of Marvel's science fiction stories who encountered weird monsters and invading aliens. The only difference was that most of these heroes were normal people in plain-clothes who appeared in only one story apiece; Droom was a recurring, costumed character with superhuman powers.

Still, Lee and Kirby did not explore the potential abilities of this man they set up as a master of two schools of sorcery. Droom's preferred tactic for defeating his adversaries was hypnotizing them into accepting defeat. Bald and clearly well into middle age, Droom hardly looked like the super hero sort. Lee and Kirby, probably had intended him to be a character like [illegible], another hypnotist, or the magician heroes of the pulps and early comic books, such as DC's Zatara. Most significantly, Droom's characterization was entirely one-dimensional: the stalwart hero without frailties. The Marvel revolution had not happened yet.

In the 1970s Marvel reprinted the Droom stories in [illegible] TALES, changing his name to Doctor Druid since his original name, besides being rather lame, also sounded too much like one of Marvel's most effectively portentous names, Doctor Doom. Druid also turned up in a few issues of [illegible] HULK and was eventually inducted into [illegible] in the 1980s. But people kept changing their minds as to what to do with them. Under the spell of [illegible], he betrayed the Avengers. Then [illegible] rejuvenated and rehabilitated him, [illegible] made him an ally of [illegible] and he even headed two short-lived super hero teams, the [illegible] in [illegible] and the [illegible] in the book of the same name. Finally, with the latter team's demise, writer [illegible] turned him into a sinister figure in the [illegible] limited series, virtually unrecognizable as his 1960s self. By the end of the series, Druid was dead and there seem to be no plans for his resurrection anytime soon.

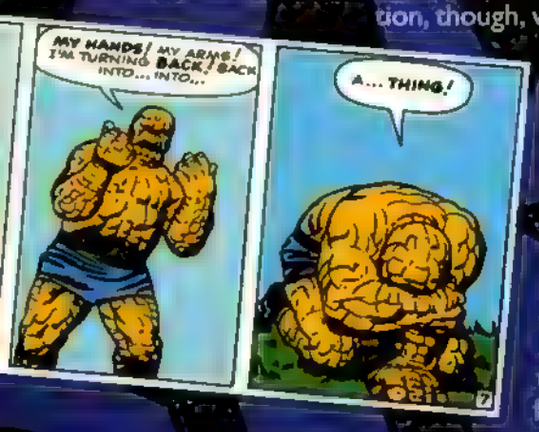


I'M CALLING MYSELF THE HUMAN TORCH--AND I'M WITH YOU ALL THE WAY!
SAME GOES FOR ME... THE INVISIBLE GIRL!
THERE'S ONLY ONE STILL MISSING... BEN!!
I AIN'T BEEN ANYMORE--I'M WHAT SUSAN CALLED ME--THE THING!!
AND I'LL CALL MYSELF--MISTER FANTASTIC!
AND SO WAS BORN "THE FANTASTIC FOUR!!" AND FROM THAT MOMENT ON, THE WORLD WOULD NEVER AGAIN BE THE SAME!!

Back to [illegible]—the cover of which has been the subject of many homages over the years. Even it did not represent a sharp break from Marvel's other books of the time either. Once again, here were tiny human figures struggling against an enormous Kirby monster in the tradition of [illegible] and the rest. Indeed, the FF's first recorded adventure was their invasion of Monster Isle, which was packed with strange beasts from subterranean caverns. This would be no surprise, either: if Marvel monsters did not come from space or undersea, they came from underground.

The first major difference that would have struck readers picking up FF #1 back in 1961 was that before FF, the monsters were the stars of the past stories; the tales were named after the Blip and his ilk, not their rather anonymous human opponents. As with Doctor Droom's series, THE FANTASTIC [illegible] focused on its human heroes. They were familiar character types to fans of the science fiction movies and comics of the 1950s: the older, pipe-smoking, cerebral scientist (Reed Richards), the brawny sidekick [illegible], the impetuous teenager (Johnny [illegible]), and the beautiful ingenue [illegible] (not yet married to Reed). The origin was a very contemporary one for the early 1960s: they went on an unauthorized space flight in a ship of Reed's design, determined to beat the Russians "to the stars." Their powers were the result of their accidental exposure in space to that new terror of the Atomic Age, radiation, which mutated their forms in weird ways. Reed could stretch his body and Sue could turn invisible, Johnny could burst into flame, making him the namesake and successor to Marvel's Golden Age star, the Human Torch, and Ben became the inhuman-looking Thing, then with a lumpish hide rather than the rock-like one he developed later.

What must surely have surprised readers of the time was that the origin sequence in FF #1 began with the foursome quarreling with each other. It may seem a small matter now, but back then super heroes were paragons of perfection who never had harsh words for anyone but villains. Yet here was Sue—the ingenue—accusing Ben of cowardice. This was Marvel's first step in presenting its characters as multidimensional personalities. Even the FF's first opponent, the Mole Man, proved to be more than a cardboard villain; his own origin as a pathetic, nearly blind outcast from society was surprisingly affecting. Perhaps the biggest innovation, though, was the Thing. Having centered so many past stories on Godzilla-size monsters who menaced Earth's humans, now Lee and Kirby came up with a human who became a monster. But unlike Reed, Sue, and Johnny when they underwent strange physical changes, Ben could not turn back to human form.



Super heroes had until then been glamorous figures, taking pleasure and pride in their powers. For [illegible], though, super powers were a curse. His great strength came along with the burden of ugliness, of no longer being outwardly human, of having to hide from the sight of the world behind the scarf, hat, and coat he wore in the first issue. Believing himself cast out of the human race, Ben was bitter and morose; not until later issues would he develop the sense of humor that helped compensate for his periods of deep depression. His despair drove his rage, which in these early days, kept exploding forth in bursts of violence; it was as if his monstrous appearance was the outward expression of the dark side of his own personality which the radiation had unleashed. Lee and Kirby would soon take this idea much further with the Incredible Hulk.

Ben had a startlingly different characterization for a super hero: The Thing was not only the super hero as monster, but was also the comic book world's first tragic hero. It was the Fantastic Four, and the Thing in particular, who pointed the direction Marvel was to take.

Hangin' with RON LIM

A conversation with Ron Lim is a lot like one of his comic book pages; a whirlwind of action. He is one of the most prolific creators of our time and one of the nicest guys in comics today.

For more than two years, Ron hasn't missed penciling a single issue of X-MEN 2099. Now, Ron's moving over to SPIDER-MAN 2099, and getting ready to "Fast Forward" even further into the future for the 2099 event premiering in June.

Ron and I finally got to chat about something other than his deadline (which he never misses since I'm the tough 2099 assistant editor), and I got to know more about the busiest man in comics.

MV: How do you feel about your move to SPIDER-MAN 2099?

RL: I think it'll be cool. It'll be fun 'cause it's a single character. I've done X-MEN 2099 for thirty-one straight issues and I'm looking forward to working with one central character

MV: Hadn't you worked with Peter [David] on an issue of SPIDER-MAN 2099 before your present run?

RL: Yeah, and the first [SPIDER-MAN 2099] annual.

MV: I don't know how much Joey's [Cavalieri, 2099 editor] told you, but we're starting over with first issues and creating a whole new cast.

RL: So am I starting from ground zero?

MV: Yeah, when issue one hits, it will be a completely new series. What do you think about that?

RL: I enjoy being on the ground floor of a project. That way I'll be able to design some of the characters and start them out.

MV: The "Fast Forward" event is going to change a lot. What kinds of things are you going to have to think about when you finally get to sit down and create the new world for Miguel O'Hara?

RL: It depends on what mood Peter is going for; if it's gonna be more grim, or more humorous. Visually, I'd go for a more Gothic look. That way I get to play with lots of shadows. Is his costume going to stay the same? Is he going to *have* a costume? It's *nude* Spider-Man! The most horrifying costume ever seen! (laughs)

MV: So let's talk about you.

RL: About me? Well, I draw funny books.

MV: What was the first book you did?

RL: ***X-MUTANTS*** was the first thing I did many, many moons ago, for a small company, Eternity. The first job I did for Marvel was a Black Panther job which was for SOLO AVENGERS, which took about a year to print. My first actual printed work was PSI-FORCE, with the fabulous one, Fabian [Nicieza].

MV: What's been your favorite job so far?

RL: Up until this point? I really can't say. I enjoyed my run on SILVER SURFER and X-MEN 2099.

MV: Who's been your favorite writer to work with?

RL: That's a hard one. I'll take the fifth on that one. I like a lot of my writers, ya know?

MV: Anyone you haven't had the chance to work with?

RL: Whenever someone asks me that question I blank out. I really wanted to work with Alan Moore, but that was years ago. I really like Peter; actually this is really cool because I've always wanted to work with Peter regularly and it just kind of fell into my lap.

MV: Who were your favorite creative teams when you were growing up?

RL: Claremont and Byrne definitely.

MV: So what do you do when you first sit down to draw a book?

RL: Well, first I get the plot and I read over the thing once. Then, when I go over each page, I mark where each of the visual points are, and then what I do is go either to thumbnails or straight to the boards with blue pencil. Then I sketch it out real lightly to make sure the storytelling's okay.

MV: How many pages a day?

RL: Usually two. Sometimes three. It depends on the amount of detail that's there. If there's a lot in the panels, usually two a day.

MV: What's the most you've ever had on your desk at once?

RL: How many projects? Oh man, I think it was four at one time. I didn't plan it that way. Everything just happened to overlap. I was getting calls and going, "Oh yeah, that would be cool," and then everything came in at the same time and I was like "oh no!"

MV: Are you trying different art styles?

RL: I always hope I can get better. I like to try to vary my storytelling, style, and rendering. I've been playing around with lighting a lot more, which is fun.

MV: With X-MEN 2099 you did thirty-one straight issues; that's gotta be satisfying. How do you feel about your work on that book?

RL: It was fun because the characters really progressed and it was just fun drawing it from the first issue. It's rare that I actually stay on something for that many issues.

MV: What do you think about 2099 overall?

RL: I read DOOM 2099 now and I really like what Warren Ellis is doing with the book. And SPIDER-MAN 2099 is really cool too, especially since Peter is bringing in new versions of past characters. I've always liked the futuristic stuff the best. Having drawn SURFER for so many years, I've always liked the high tech stuff.

MV: Is there any other stuff that you've been doing?

RL: Yeah, right now I'm working on "How To Draw The X-Men", which is for kids. plud 3-d views of [Marvel's Toy Biz toys and stuff.

MV: Is there anything out there you *haven't* worked on that you want to?

RL: Well, actually, you know what I really want to do? The Fantastic Four! I love them! If there's any book I want to take over, it's the actual FF book or the 2099 one. I *love* the FF; they're my favorite characters. I grew up reading them first, you know? I've always enjoyed them. I'm going to have to let Joey know! I'll call him up now! At home! That's definitely what I want to do. But really, as long as I enjoy it, I want to stay in comics.

A kalidascope of words with

Scott Lobdell

He's brought the X-Men and Generation X to different dimensions and beyond. Now he's ready to reveal the new challenges that await Marvel's mighty mutants, including the upcoming "Generation X" TV movie, the fate of Psylocke and more! Plus he talks about his own excellent adventure—honeymooning in Africa! Get it all as Marvel's Amy Meyer and Spencer Lamm chat with X-writer Scott Lobdell.

SCOTT WITH HIS WIFE AND EDITOR-IN-CHIEF BOB HARRAS

Amy: *Do you have any big plans or big events that are coming up in GENERATION X that you can tell us about?*
Scott: See, that's a tough one because we're right in the middle of discussing something...the thing with Generation X is that Chris [Bachalo] may be coming back really, really soon or he may not. That'll depend on the direction that we're gonna go. Also, there's a crossover which may or may not happen, which would hopefully be broader than just the X-universe. Again that too will decide which direction we're gonna go.
Spencer: *But nothing that you can talk about specifically?*
Scott: No, not yet.
Amy: *Any character-specific news you can tell us, like the developing romantic relationship between Husk and Chamber?*
Scott: Just that it's not gonna play out the same way that Scott and Jean played out before, or the way that Rogue and Gambit are specifically seen as an item. I think it's because [Husk and Chamber] are much younger characters. We've seen a kind of relationship between Angelo and Paige that's different than the relationship between Paige and Jonothon. In coming months, we'll see Jonothon's past relationship with a woman named Gayle Edgerton who was with him at the moment he first manifested his powers (Chamber has a hole where his chest and lower jaw should be, other than that, he's perfectly normal.—Tim), and because of that, both he and she carry some emotional scars. So what looks to be the 'we want to be together but we can't' type of relationship that exists between Paige and Jonothon, you'll find out is actually gonna have many more twists and turns than the classic X-Men relationships have had in the past.
Spencer: *It's not gonna be a "Moonlighting" thing is it?*
Scott: No...although Emma and Banshee do seem to be pushing more and more in that direction. The more she gets to know him, the more she is attracted to him, whereas he is much slower to it. He's so involved in the children that he doesn't really see her as being any more than his co-instructor.
Amy: *About Penance—people are wondering about her and are very interested in her character. Are there specific things you're going to touch on about her past and who she is in the months to come?*
Scott: Actually, if Chris comes back, the very first thing we want to do is to reveal Penance's big secret and get really into her as a character. You know, for a character who hasn't said terribly much, she's garnered a lot of attention.
Spencer: *Where did the name M come from?*
Scott: Actually, it's funny because her original name was going to be Asylum for specific reasons and then Fabian [Nicieza] talked about the fact that he had a character over in NEW WARRIORS called Asylum, so we wouldn't be able to use that name. So she became M for a number of reasons. One, as somebody pointed out which I didn't think anybody in the whole world would catch—is that M sits directly in the center of the alphabet which is kind of interesting.
Spencer: *13th letter.*
Amy: *Wow, good math, Spence. I think it's great how both M and Penance are bringing out different sides of Jubilee. It seems like she and Penance are becoming friends and it doesn't seem like Jubilee's ever really had a friend.*
Scott: Well, I think that's the really fun part. In the beginning of the X-Men you had Peter and Logan and Storm and Kurt...they were all kind of filling each other out. And now, fifteen, twenty years later, the characters all kind of seem like one big happy family. And I think that by introducing a bunch of young characters and throwing them in together, the natural inclination (especially probably within the X-Men universe) is that Jubilee and Monet should automatically

be friends because they're both super heroes and they're both mutants and they're both sworn to protect a world that fears and hates them. But you'll find out that they really just don't seem to mesh...they try or they alternately try but they're just like other teenagers...they don't necessarily get along. I think as you get older and you get jobs, you tend to get along with people you work with, you get along with roommates or whatever. But when you're a kid, you're not ashamed to NOT get along with someone. And that's kind of where these two are coming from.

Spencer: *Any possible crossovers with other company characters?*

Scott: None that I see. 20 years ago I would have thought that they'd be really cool going up against the Teen Titans you know, with the Robin, Wonder Girl, Kid Flash group, but I really don't see anybody out there that they'd have too much fun with. Some people have suggested Gen13 over at Image but I think that my characters would spend too much time blushing because Gen13 characters have a tendency to just take off their clothes at any given moment.

Spencer: *And you don't think your characters would enjoy that?*

Scott: Some may...

Amy: *I heard way back that there was gonna be a made-for-TV Generation X movie. Is that still happening?*

Scott: Actually, I think it's being cast and filmed at this very moment for airing in early '96. It's a FOX 2-hour live action. It's called a "back door" pilot so that if it's well-received it'll go to series, and if not, then it just stands alone as a 2-hour movie. As near as I know, that is its only incarnation right now. That movie has some of the existing Generation X characters like Angelo and Mondo and Jubilee and I believe M, but it doesn't have some characters like Chamber and Penance and Husk, although from what I understand, if it does go to series, they may be taking those characters and putting them back into the mix.

Spencer: *Who wrote the script?*

Scott: A guy named Eric Blakeney. He had a not-enviable task. Part of the fun of the characters is their connections to other aspects of the Marvel Universe. You have Paige who has an older brother who's an X-Man, Jubilee comes from the lead X-Men group and is kind of feeling her way around here, Banshee was an old X-Man and Emma Frost was a former enemy. So within the context of the comic book series, there's a lot there. But if you're launching a TV series, you don't have the option of all that history because the X-Men and other things are tied up with different companies and different rights and such. So Eric had the difficult task of trying to create something from scratch while also being true to the original material. I think that he did a really good job of it.

Spencer: *Did he talk with you before writing?*

Scott: Yes...Chris and I will be getting story consultant credit for the pilot. Hopefully it'll go to series and then we'll see what our role is.

Spencer: *You should play a part; at least a cameo.*

Scott: Oh, I'd love to play Chamber, sure. You know, I'll be getting my braces off next week. So, it'd be the perfect time to have my entire chest and lower jaw blown off.

Spencer: *I think there'd be plenty of people that'd love to see that.*
Scott: Not sure which people you're referring to, but...
Spencer: *Oh no, not enemies. Just sick people. (laughter)*
Scott: Oh, phew.
Amy: *Do you have anything else in the works for any of the other X-characters in '96 that you can hint about..?*
Scott: I think Iceman is gonna be going through more changes in regards to applications of his powers that he, prior to his "relationship" with Emma Frost, was not really aware that he had. Psylocke is probably the biggest news. She sustained massive injuries as a result of her battle with Sabretooth And when Archangel and Wolverine travel beneath the city of Manhattan to try to come up with a cure, it binds her more to her ninja heritage than it does to her empathic mutant abilities. We're actually coming up with a new visual and a new use for her powers so she's gonna actually become quite an interesting looking character, owing a lot to Joe Maduriera's manga-influence.
Spencer: *How big a change will it be?*
Scott: Not as drastic as say, Angel changing into Archangel and certainly not as drastic a changing as proper British woman into a Japanese ninja.
Spencer: *Well, now for the really important stuff. How was the honeymoon in Africa that you just got back from?*
Scott: Africa was very, very interesting...fascinating. I think that anybody that needs to come up with story ideas should go.
Spencer: *How long were you there?*
Scott: I was there for 2 weeks, and irony-of-ironies, the second week was an eight-day safari and there's 3 vans of five people in each van, but just one other guy in our van. We're just about to get in the van and I said to him, "Oh, What do you do?" He goes, "well, I used to work for a publishing company for about eight years, but then I left." "Oh, " I said, "what company?" And he goes, "Marvel Comics." So I wound up getting to share my honeymoon in Africa with a former Marvel employee which you can imagine made my wife very, very happy. But we rationed it out to half an hour a day talking comic books. So that was kind of interesting.
Amy: *What country were you in?*
Scott: Kenya. Got lots and lots of pictures.
Spencer: *Did you do any hunting?*
Scott: No, I did not actually do any hunting at all. It was a photo safari, where you would take pictures of animals from like 5 feet away. It's really weird because you're driving along for 15, 20 minutes seeing absolutely nothing but bush and then all of a sudden you just ride up on a lion that's sitting there along the side of a road staring at you.
Spencer: *So, all right..2 weeks, Africa, honeymoon. What a great place for a honeymoon.*
Scott: Well, you don't want to get specific, it is a kid's magazine...(laughter)
Spencer: *I guess that's about it. Do you want to say hi to Mom or anything?*
Scott: My mom or your mom?
Spencer: *Well, my mom would really appreciate it.*
(laughter)

Send us your drawing of a Generation X character – and you could win the shirt off Scott Lobdell's back! That's right, fans of all-that-is-Generation X! Now's your chance to win international acclaim, fame and fortune, and have your artistic praises sung all over the known world! Okay, so maybe we're exaggerating a teensy bit. So here's the facts: send us your drawing, painting, fingerpainting, chalk drawing, or other such artistic rendering (no chewing gum sculptures, please!) of your favorite Generation X student, and if you're the winner in one of our three age divisions, you could be one of the few, the proud, and the not-so-many owners of one of three fabulous shirts worn by Scott Lobdell, creator of Generation X! Yowsa! Think of the possibilities, true believer! Oh, yeah. In all the excitement, we almost forgot. Besides the shirt, each winner will also receive a personally-autographed copy of GENERATION X #1, and a cool assortment of Generation X Toy Biz toys. They're not quite as, er, vibrant as the shirt, but we guess they'll do nicely anyways. And, as a special bonus, the three winner's artistic masterpieces will appear in an upcoming issue of Marvel Vision. Not too shabby, huh? So get your pens and pencils out, fill out this entry form, and send it and a non-returnable photocopy of your masterpiece to the address below. Contest ends February 15th, 1996, so send in your entries as soon as possible so you don't miss the deadline! After all, who could pass up a fashion opportunity like this?

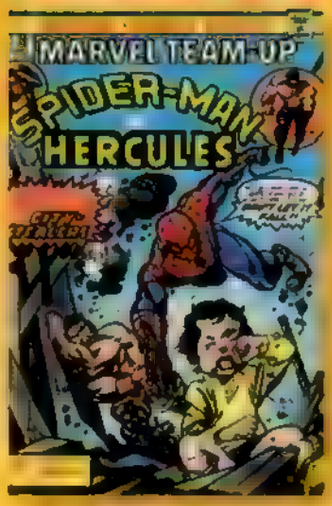
MARVEL'S KILLER MOMENTS

UN-TOWED TALES

One of Marvel's more notorious stories from the 1970s was the immortal MARVEL TEAM-UP #28. The story has Spider-Man and Hercules fighting a bunch of guys in robot suits who tow the island of Manhattan out to sea and hold it for ransom. At the end of the story, Hercules chains Manhattan to himself, and tows the island back to its original spot!



In a highly unusual move, the editor of the comic, Roy Thomas, denounced the story when it was over. Included at the end of the issue was a note from Roy, saying he found the story unbelievable, because of the amount of damage that would have ensued (particularly to the Triboro Bridge and the Lincoln Tunnel).

Marveldom assembled liked the issue even less than Roy. In the letters page regarding MTU #28, it was acknowledged that the issue was "one of the least popular stories we've done in TEAM-UP."

Fans had a particularly hard time buying the idea that Manhattan Island could be towed anywhere. As one reader noted, "How was it going to get past Staten Island and Brooklyn?"

DON'T WORRY, MR. MAYOR-- IF YOU CATCH REED RICHARDS IN A GOOD MOOD HE'LL HAVE YOUR TINKERTOYS FIXED BY MORNING.
BOY, SOME GUYS ARE JUST NEVER SATISFIED, ARE THEY HERC?
THOU DOTH FORGET THYSELF, MORTAL... "TO ERR IS HUMAN..."
"TO FORGIVE IS DIVINE"
SPECIAL NOTE FROM YE EDITOR! SO THAT'S EXACTLY THE WAY THAT MERRY GERRY TOLD IT TO US, FRIEND! AND, QUITE FRANKLY, WE'RE NOT SURE IF WE BELIEVE IT, EITHER! WHO THE DAMAGE TO THE TRIBORO BRIDGE AND LINCOLN TUNNEL ALONE WOULD HAVE-- WELL, ANYWAY--NEXT ISSUE, DON'T MISS "THE COMING OF INFINITUS!" CO-STARRING... THE HUMAN TORCH and IRON MAN!

The whole story was later written off as being a greatly exaggerated incident told by Hercules. That Hercules! He's such a storyteller. You just can't believe a word that guy says.

Next we'll find out ol' Herc only had ten labors, and Cerberus the Three-Headed Dog was just a pup with a bad case of rabies!

—BARRY DUTTER

ultraforce spider-man

January brings the next in a series of crossovers fans have been waiting for: *UltraForce/Spider-Man* #1. The Malibu/Marvel crossovers initiated with *UltraForce/Avengers* and the *Phoenix Resurrection* continue when the web-slinger joins the Force to defend New York City from a sinister new super-group called the Shifters.

When a dimensional rift opens between the Malibu and Marvel Universes, Spider-Man and UltraForce rush to the scene to shut it down. What seems like your everyday cosmic occurrence quickly swells to disastrous proportions when it becomes clear that the rift was no accident—and somebody wants to make sure it never closes!

Further investigation reveals the culprits—an evil group of interdimensional baddies known as the Shifters. They're out for world conquest, but one world isn't enough for them. They want two—the Ultraverse and the Marvel Universe.

"While this book is a one-shot," says writer Marv Wolfman, "we've laid the groundwork for important future story developments. The Shifters are a key part of that groundwork. They are ruthless, destructive, and brutal, but there's a reason for their abject hatred for the Marvel and Malibu worlds. In short, they want nothing less than the total annihilation of the Marvel and Malibu universes. But you'll have to read the story to find out why!"

Naturally, no *UltraForce/Spider-Man* crossover would be complete without an all-star cast of characters. Joining in the fray is a green and purple, pointy-eared villain-turned-hero who packs a wallop on his own! Throw Green Goblin in the mix with Spider-Man and UltraForce, and the results are explosive!

UltraForce/Spider-Man isn't just an all-star character team-up—it's got an all-star creative team, as well. Wolfman, well-known for his previous work on Spidey, handles the writing chores. He's joined by more Spider-Man veterans, Steven Butler and Shawn McManus, who'll be bringing UltraForce and Spider-Man to life with the pencil and inks.

Says Editor Hank Kanalz, "This book has been a blast to work on—Wolfman's an old pro at writing Spidey, and he's a pleasure to work with. Additionally, Butler and McManus have their own experiences with Spider-Man, so the creative team is a great match."

"The toughest thing about this project was writing a story that was more than just a series of appearances by famous characters," Wolfman added. "We wanted a story that would incorporate Spidey, UltraForce, and the Green Goblin in integral ways. The Green Goblin is especially important to the story, as he's the nexus for the events that kick the book off. Still, this story is unique to these characters, and couldn't be told without them."

Penciler Steven Butler agreed, adding, "This book was a lot of fun. Because it's a team book, and there's a lot of interaction between characters. There's a real fast-paced, dynamic feel to it. It's definitely a new experience for me, having done single-character books like *Spider-Man* in the past. But it's a great opportunity to experiment, and I was thrilled to work with Marv Wolfman."

"The biggest challenge with this project," said Kanalz, "is keeping the continuity in line with both *UltraForce* and *Spider-Man*, without putting a stranglehold on the story we want to tell. The *UltraForce/Spider-Man* format sounds very complicated, but since we have a solid plot in place, it was actually a breeze to orchestrate."

Because just a killer story is never enough, Malibu is mixing

UltraForce/Spider-Man available with two different covers. *UltraForce/Spider-Man* #1A features a stunning UltraForce/Green Goblin piece pencilled by George Pérez and inked by Phil Jimenez. *UltraForce/Spider-Man* #1B is an UltraForce/Spidey shot pencilled by Phil Jimenez and inked by George Pérez.

Wild Women o' the Ultraverse!

To say that the women of the Ultraverse are in for some excitement in 1996 is an understatement! How about we just say they're gonna have an extremely wild year?

You can't expect a 17-year-old blonde bombshell with magical powers to live a nun's life. Nor can you expect the world's greatest and most seductive thief to lay low and mind her manners.

Nobody in the Ultraverse is laying low in '96, especially not the Ultragals! They start off the new year livin' large when they tango with villains and superheroes from both the Marvel and Malibu universes!

Ignorance is bliss! Well maybe for some—but, not for the inexperienced Mantra! In fact, if she doesn't get a grip on her magical powers, she may find that ignorance is death!

School 's in, and NM-E's the teacher! Mantra's got to do some quick learning to save her pretty face from the ugly bad guys she'll run into this year. In January's *Mantra* #5 and #6, the sexy superheroine must stop the rampaging NM-E or be killed! And, as if her battle with NM-E weren't enough to fill her dance card, Mantra discovers the secret of the new Wrath!

Have a heart! It's easy to feel sorry for Siren these days. After all, it's tough being the world's greatest thief and sexiest troublemaker!

In *Siren Special* #1, in stores February, Ultraverse's baddest girl meets the Exiles' Shuriken. One mesmerizes, the other paralyzes, but they mix like oil and water! In fact, they'd like to see each other dead! Only Juggernaut can step into the middle of this one, and stop Siren and Shuriken from ripping each other to shreds! Plus, this special issue reveals Siren's mysterious origin—and it's not what you'd think!

It'll take more than charm and good looks to get the wild women o' the Ultraverse out of the wild messes they're going to find themselves in! Ring in the new year with Mantra and Siren!

HANDBOOK TO THE MALIBU ULTRAVERSE

Want to get the latest and most in-depth information on your favorite Ultraverse character? Check out the *Handbook to the Malibu Ultraverse* #1, which hits comic store shelves in January.

The encyclopedic *Handbook* leaves nothing to guesswork. Ultraverse stars such as Prime, the Exiles, Mantra, UltraForce, and others are listed in detail. Where else can fans find up-to-the-minute information about their favorite Ultra's powers, skills, and abilities? Technical sections explain the science behind Night Man's arsenal, the UltraForce headquarters, and other Ultra-gadgets.

Also listed are Marvel guests in the Ultraverse, such as the X-Men, Spider-Man, the Green Goblin, Loki, the Lizard, and others! Marvel fans will get the scoop on their favorite characters' visits to the Ultraverse. These listing focus on the power alterations that Marvel characters experienced during their tours of the Ultraverse, as well as the slugfests they found themselves in when they got there!

Naturally, no *Handbook* would be complete without pictures and diagrams. Fortunately for Ultraverse fans, the pix are provided by a host of industry stars such as Jeff Matsuda, Art Thibert, George Perez, and other hot industry favorites.

Editor Hank Kanalz noted, "This is every Ultraverse Fan's dream come true! In the space of two volumes, our anal retentive staff has compiled stats and information about Ultraverse characters that will be invaluable for ever old and new Ultraverse reader."

SPIDER-MAN:
THE CLONE STORY
MADE EASY...
YEAH, RIGHT!
By
Mark P.
Bernardo

FIVE YEARS AND SEVERAL MONTHS AGO:

MILES WARREN

"The most crucial step in my master plan began today, when I finally created a perfect clone of Peter Parker, using cell samples surreptitiously taken from him in our biology class. The young fool had no idea that his kindly biology professor is in actuality his most deadly nemesis! Nor did he have the slightest inkling that I am aware of his dual identity as Spider-Man...the man who killed my beloved Gwen. How dearly he will pay for that transgression!

"I sometimes wonder about the whereabouts of my first, failed Parker-clone...the prototype. Ah, well, he was just a bad batch of chemicals."

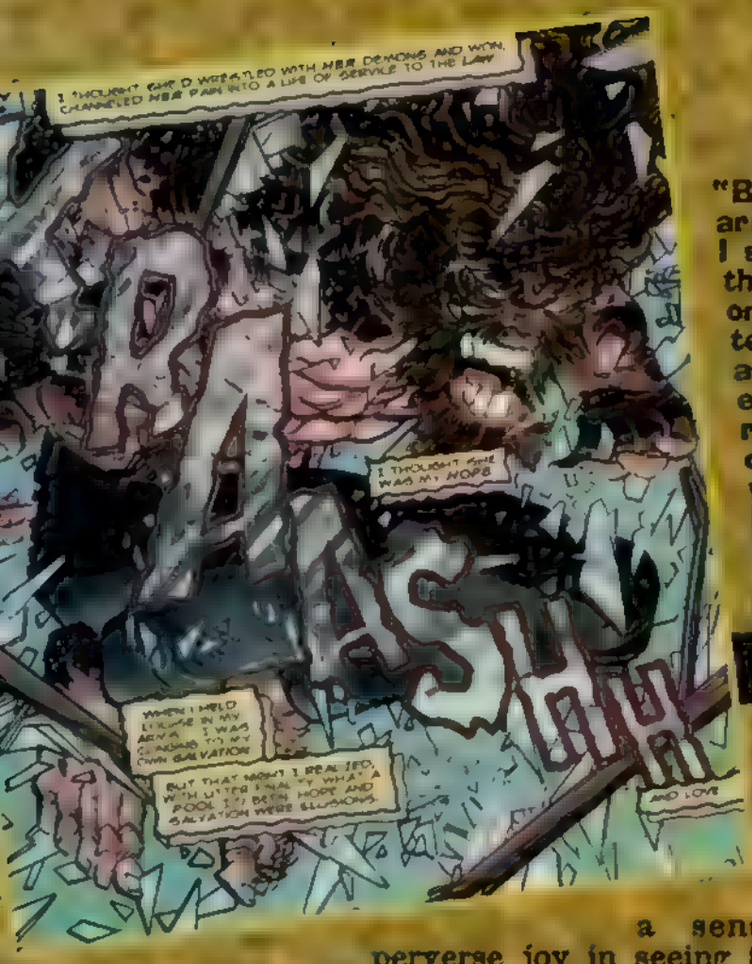
DARKNESS. LIGHT.
OBLIVION.
LIFE.
CELLS SPIN LIKE UNIVERSES EXPLODE LIKE SUNS CHAOS BECOMES ORDER FORMLESSNESS
...BECOMES FORM
THE URGE TO KNOW RISES FROM SILENCE, BECOMES A SHOUT OF BEING THAT ECHOES INTO CONSCIOUSNESS
THERE ARE NO WORDS, THERE IS NO LANGUAGE, BUT IF THIS EVOLVING CREATURE COULD SPEAK, IT WOULD ASK ONE SIMPLE QUESTION
"WHO AM I?"
ITS ANSWER LIES IN DREAMS

FIVE YEARS AGO:

BEN REILLY

"The first thing I remembered was this really disorienting feeling that things weren't quite right. I had awakened outside a factory in Brooklyn, in the pouring rain. I had a vague memory of a fight in Shea Stadium with a clone of myself, but my first reaction was to get home...to Mary Jane's arms, to my life. But when I got there, I looked in the window of my apartment and saw myself...Peter Parker, there, with MJ...the woman that I was just starting to love. Then a painful flash in my head: I was the clone, the copy, the fake. And the world fell out from under me.

"I didn't really care if I even survived that dark, stormy night; but I did. The next morning, I went back to an apartment in which I now felt like an intruder. I grabbed some cash, some mementos, and an extra set of the Spider-Man gloves and mask. (Even then, I couldn't leave my double life totally behind, I guess.) I jumped on a bus going west, and met this shoe salesman by the name of Clifford Gross. At first, I found him obnoxious and overbearing, but keeping that poor, pitiable soul from committing suicide is ultimately what gave me the strength and perseverance to go on in my own wretched life. I decided I needed a name... so I became Ben Reilly, for my Uncle Ben, and using Aunt May's maiden name. I got back on a bus headed west, ready to resume some kind of life."



I THOUGHT SHE'D WRESTLED WITH HER DEMONS AND WON. CHANNELED HER PAIN INTO A LIFE OF SERVICE TO THE LAW.
I THOUGHT SHE WAS MY HOPE.
WHEN I HELD LOUISE IN MY ARMS, I WAS CLINGING TO MY OWN SALVATION.
BUT THAT NIGHT I REALIZED, WITH UTTER FINALITY, WHAT A FOOL I'D BEEN. HOPE AND SALVATION WERE ILLUSIONS.
AND LOVE

FOUR YEARS AGO:

SEWARD TRAINER

"Ben Reilly was something of a wreck when he arrived at the Traveler Inn in Rachel, Vermont. I saw something in this brash young man...something noble underneath the cynicism that a year on the road can create in a man. I put him up, tended to his health, and gave him a job as a lab assistant. When a nuclear core meltdown threatened my lab, destroying years of work, Ben revealed his superhuman abilities in preventing disaster. He entrusted me with the secret of where those abilities came from...and the tragic life that has resulted. That day, I vowed to do whatever I could to aid Ben Reilly in finding a place in the world."

TWO YEARS AGO:

KAINE

"I have followed Reilly's trail for three lonely years since being abandoned by my unfeeling 'father,' the Jackal. At first it was merely out of a sense of curiosity, a perverse joy in seeing this man, the original Peter Parker from whose cells I was cloned, doomed to a life as empty as my own. It was in Salt Lake City where everything changed...my morbid curiosity turned to outright hatred. I met a woman—a police officer named Louise Kennedy, who saw beyond my scars and my rage. I thought I had found love of a sort...until Kennedy revealed herself to be on the payroll of the filthy druglord whose organization Reilly was clandestinely trying to bring to justice. Reilly had also found a love of his own...a love not cursed by betrayals. A life, for that matter, not cursed by the cellular degeneration that was ravaging my body and mind. From the moment of that realization, I devoted my life to tormenting Reilly, and denying him happiness. The first step came when, in a fit of rage, I snapped the traitorous Kennedy's neck, branding her with my Mark of Kaine. I then left Salt Lake City to let Reilly take the blame for the crime."

APPROXIMATELY FOUR MONTHS AGO:

BEN REILLY

"I'd managed to avoid any contact with my old life for a long time...until one of my periodic phone calls to Aunt May revealed she'd had a serious stroke that left her hovering between life and death. Though I swore never to return, I promptly left the temp job I was doing in the Northwest and headed for New York. Even though I wasn't really Peter Parker (or so I thought), the memories I have of her were important in shaping who I have become. Unfortunately, while visiting her at the hospital, I ran into Peter...and his first reaction was pretty expected. While we were slugging it out, this ghostly being called Chaitra showed up, and we both ended up at Ravencroft Institute, joining forces to stop this mysterious creep named Judas Traveller from letting all the inmates out. Out of all this, I realized that, even though I was a clone, I had a responsibility to use my powers for good...and soon the hero, unfortunately saddled with the name, 'Scarlet Spider' was born! I couldn't leave New York yet...not until Aunt May was all right."

APPROXIMATELY THREE AND A HALF MONTHS AGO:

KAINE

"The visions started coming with increasing frequency after I came to New York. Mary Jane Watson-Parker, the wife of my clone-brother, Peter Parker, murdered by an unknown assailant. I refused to let this happen. All the potential murderers had to be eliminated. I killed the novice Grim Hunter, and then crushed the life from the diabolical Doctor Octopus. By then, Reilly was getting uncomfortably close to Peter's life...to destroying what my clone-brother had built for himself. But Reilly's own past was closing in as well..."

APPROXIMATELY THREE MONTHS AGO:

THE JACKAL

"The memory implants that I placed in both Reilly and Parker five years ago have worked perfectly, luring the two Spider-boys to my stronghold in the Catskills. I wanted an audience for the unveiling of my new, genetically perfect body. It took five years in an incubation pod to acquire it. I took great delight in planting the seeds of doubt in both of their minds as to whom the original Parker was...a bit of fun before I escaped and went about setting in motion my larger scheme."

APPROXIMATELY TWO MONTHS AGO:

PETER PARKER

"Everything hit the fan right after Aunt May died. Right after the funeral, this detective from the Salt Lake City PD shows up and arrests me for murder! It turns out he was really after Reilly, for a crime that was committed by Kaine! To prove this, Reilly took my place in prison while I cleared his name. Fortunately, Kaine confessed to the murder before either me or Ben could fry, only to later escape! Then tests run on MJ's unborn child by Ben's scientist buddy, Seward Trainer, led to the revelation that I was actually the clone, and Ben was the original Peter! I went a little nuts after that. I came to my senses, with the help of Ben, and ultimately helped him shut down the Jackal's schemes. Even Kaine—who, it turned out, saw me as a brother—sacrificed his life in the final battle. I kept the name Peter Parker, and continued for a while as Spider-Man. But a few close calls convinced me that the greatest responsi-bility isn't punching out badguys—it's being a father. So MJ and I left NewYork...leaving the mantle of the Big Apple's web-swinger to Ben."

HIS BLOOD IS POISONING WITH THE POISON. THAT IT MIGHT BE KAINE.
HE WANTS IT NEED IT EVEN... SO THAT HE CAN RID HIMSELF OF THE CREATURE TORMENTING HIS MIND AND IN TERRORIZE IN HIS LIFE
IT MUST END
NOW!
THEN THE MAN KNOWN AS PETER PARKER MUST DEAL WITH ONE LAST PROBLEM.
IT'S A BIG ONE, TOO...
WHAT TO DO ABOUT BEN REILLY?
HE HAS TO DO SOMETHING.

TODAY: BEN REILLY

"It was pretty daunting starting over again. Even though I'd been Spider-Man first, Peter had been Spider-Man longer. He'd made the role his own. I started trying to build myself a life in New York as Ben Reilly, and continued fighting crime as the Scarlet Spider—until I was captured by the crazed new Doctor Octopus and made to destroy public enemy number one. It was time for Spider-Man to swing again...so I came up with a new costume to reclaim for myself the mantle that the Jackal's vengeful scheme had so long denied me...the mantle of the one, true, Spider-Man! It's good to be back!"

His Point-Blank Comments

on

NDER

Who's tall, has a mane of white hair, the perpetual appearance of a man on safari, and is on equally intimate terms with Shakepeare and the Punisher? John Ostrander, that's who! The man who verbally floats like a butterfly and stings like a bee reveals both his quirky personal past and his future plans for the recently electrocuted Frank Castle!

WHERE ARE YOU FROM, JOHN?

I'm from the Chicago, Illinois area. I migrated east about four years ago to Connecticut and settled in Jersey a year ago.

IF YOU LIVE IN JERSEY, HOW COME YOU DON'T HAVE A JERSEY ACCENT?

I'm working on it! I can put it on when I need to!

HOW DID YOU GET INTO COMICS?

I didn't actually become a writer in comics until I was thirty-three, but I was always a big fan! I mean, I was reading the X-MEN when they cancelled the book—when Professor X was killed for the first time!

But anyway, I came in through the theater. I was working in Chicago theater during a very interesting time. David Mamet was just starting out, John Belushi was working at Second City, John Malkovich and Laurie Metcalfe were at the Steppenwolf Theater, and Gary Cole, who's now working on "American Gothic." He and I knocked back more than a few beers together.

HEY, THIS IS A FAMILY MAGAZINE, PAL.

The Punisher

"I don't need therapy."

I was acting, I was directing, I was producing, I was writing plays. It was the writing plays part that actually got me into comics. I co-wrote a play called "Bloody Bess."

A FAMILY MAGAZINE.

It was a pirate play, sort of a "Thelma and Louise" on the high seas, only it ended in blood, of course. Anyway, this friend of mine, Mike Gold, went to see it about 8 million times. He loved it.

So when Mike Gold was among the people who started First Comics, he gave me a chance. I did a couple of backup stories and then they threw STARSLAYER at me. After that, I created Grimjack, and the rest is hysteria. (Ever the gentleman, John refrains from laughing at his own joke.)

HOW DID YOU WIND UP WRITING THE PUNISHER?

One day, Chris Cooper calls me up out of the blue, tells me he's the new editor on PUNISHER, and that he wants me to submit a proposal. To which I respond, "You're out of your mind! The Punisher is not my favorite character! The character's been worked to death!" But I wrote one anyway, thinking, "There's no way they'll go for this, not in a million years—it's way too wacked!" Then Chris calls me back and he says, "We love it, it's perfect, it's such a breath of fresh air, it's just what we're looking for!"

SO DO YOU AND THE PUNISHER HAVE ANY CHARACTERISTICS IN COMMON? SIMILAR BUILD? SHARED LOVE OF AUTOMATIC WEAPONRY?

Every time a writer is working with a character, if he's being honest, he's working from something within himself. So obviously there's something within me that responds to Frank. Certainly I

have my own interior conflicts that I work out. (Chortles happily.) I don't need therapy, because I got the Punisher! I got a big violent guy to act things out for me!

HOW COMFORTING. WHAT'S THE PUNISHER GOING TO BE UP TO IN '96?

Well, things will be coming to a boil in '96 over the ramifications of Frank's agreement to become the head of a Mafia family. Is he serious about this? Or is he just using it as a way to get at his enemies? Frank is no longer sure.

He's burned out. He's totally burned out, and now, suddenly he has a chance to actually accomplish something. All he has to do is maybe barter a little bit of his soul along the way.

THE PUNISHER KILLED NICK FURY IN "DOUBLE EDGE OMEGA." IS IT UP TO YOU TO ESTABLISH THE NEW HEAD OF S.H.I.E.L.D.?

I'm working on that issue now! The new head of S.H.I.E.L.D. is going to be G. W. Bridge, but what's going on right now is that Mikel Fury, Nick's son, is going to use all of S.H.I.E.L.D.'s forces to go out and get the guy who killed his father. Of course, the Punisher's been cleared of all charges, including the ones he was supposedly executed for, so what it comes down to is that Mikel is using those forces illegally, and that's bound to result in a complaint or a lawsuit of some kind.

CAN READERS EXPECT LOTS OF GONZO ACTION FOR THEIR BUCK NINETY-FIVE?

There's going to be a huge gang war in the summer of '96, and it's not just going to be in PUNISHER, it's going to spill over into other Marvel Edge line books as well! (Here, John breaks into a startlingly off-key rendition of "Dancin' in the Streets," only it's "Shootin' in the Streets.") It'll be interesting to see which members [of the Geraci family] are left standing and what Frank decides to do with himself.

ANY IDEAS YET?

One thing we have to do, that I really want to do, is find out what the readers think. If the readers like what we're doing, they should let us know, and if they don't like what we're doing, they should let us know. (Listen good here, kids!) The readers may actually influence what our final decision is going to be!

When John Ostrander isn't acting out his aggressions through recently electrocuted comic book characters, he can be found at the movies, ardently cheering on the talking pig in "Babe."

RON GARNEY meets the nation

He's the artist who's bringing Captain America to new heights of glory. And here's what he has to say about how he wouldn't let a few false starts to his career, some crazy convention experiences, a love for widely scorned meat products, or "Moomba", the man-eating tree, stop him from becoming a primo player in the insane industry we call comics.

Matt Friedman: So what were the first titles that got you hooked on comics?

Ron Garney: Aw geez. Believe it or not, I remember (snicker) reading this one called "Moomba". It was about this petrified tree that would come to life and eat people as they walked by it. I also remember reading MAGNUS ROBOT FIGHTER (the pre-Valiant one). Those and a lot of the Disney stuff. But then I started reading the Marvels with all the Kirby art and I really got hooked. My favorite run in a comic book, which wasn't that long ago, was THOR when Walt Simonson was writing it.

MF: Was that part of your inspiration to draw?

RG: Oh, I've been drawing since I was about two. I was a really huge Batman freak. My mother got me a pedal Batmobile and I was always drawing these Batman pictures and Superman pictures and things like that. Once I reached probably 9, 10, or 11, I just kind of forgot about them for a while. Meanwhile, I went to college for graphic design, but I really wasn't happy with it once I got out of school. Art wise, I was floundering around. I was managing a night club and bartending and things like that. I wasn't happy doing graphic design work. Then I picked up a Mike Zeck SECRET WARS issue. That's how I got hooked on comics again. I decided that that was what I wanted to do and started working on my samples. Then I found out that, by coincidence, Mike lived around my area. I called him up and asked him to look at my stuff and the rest is history.

MF: Wow. So has Mike been a major influence on your work?

RG: Actually, I find it funny that I've been accused of trying to follow in his footsteps. Even though that's really not the case, it's a compliment. I don't think our styles are the same, but

MARVEL
HEROES

there's a little bit of him in my stuff here and there. I think that we're mostly similar in that we've both tried to approach Captain America by bringing a fresh new look and approach to the book.

MF: Your work has been fantastic. The storytelling and pacing are great.

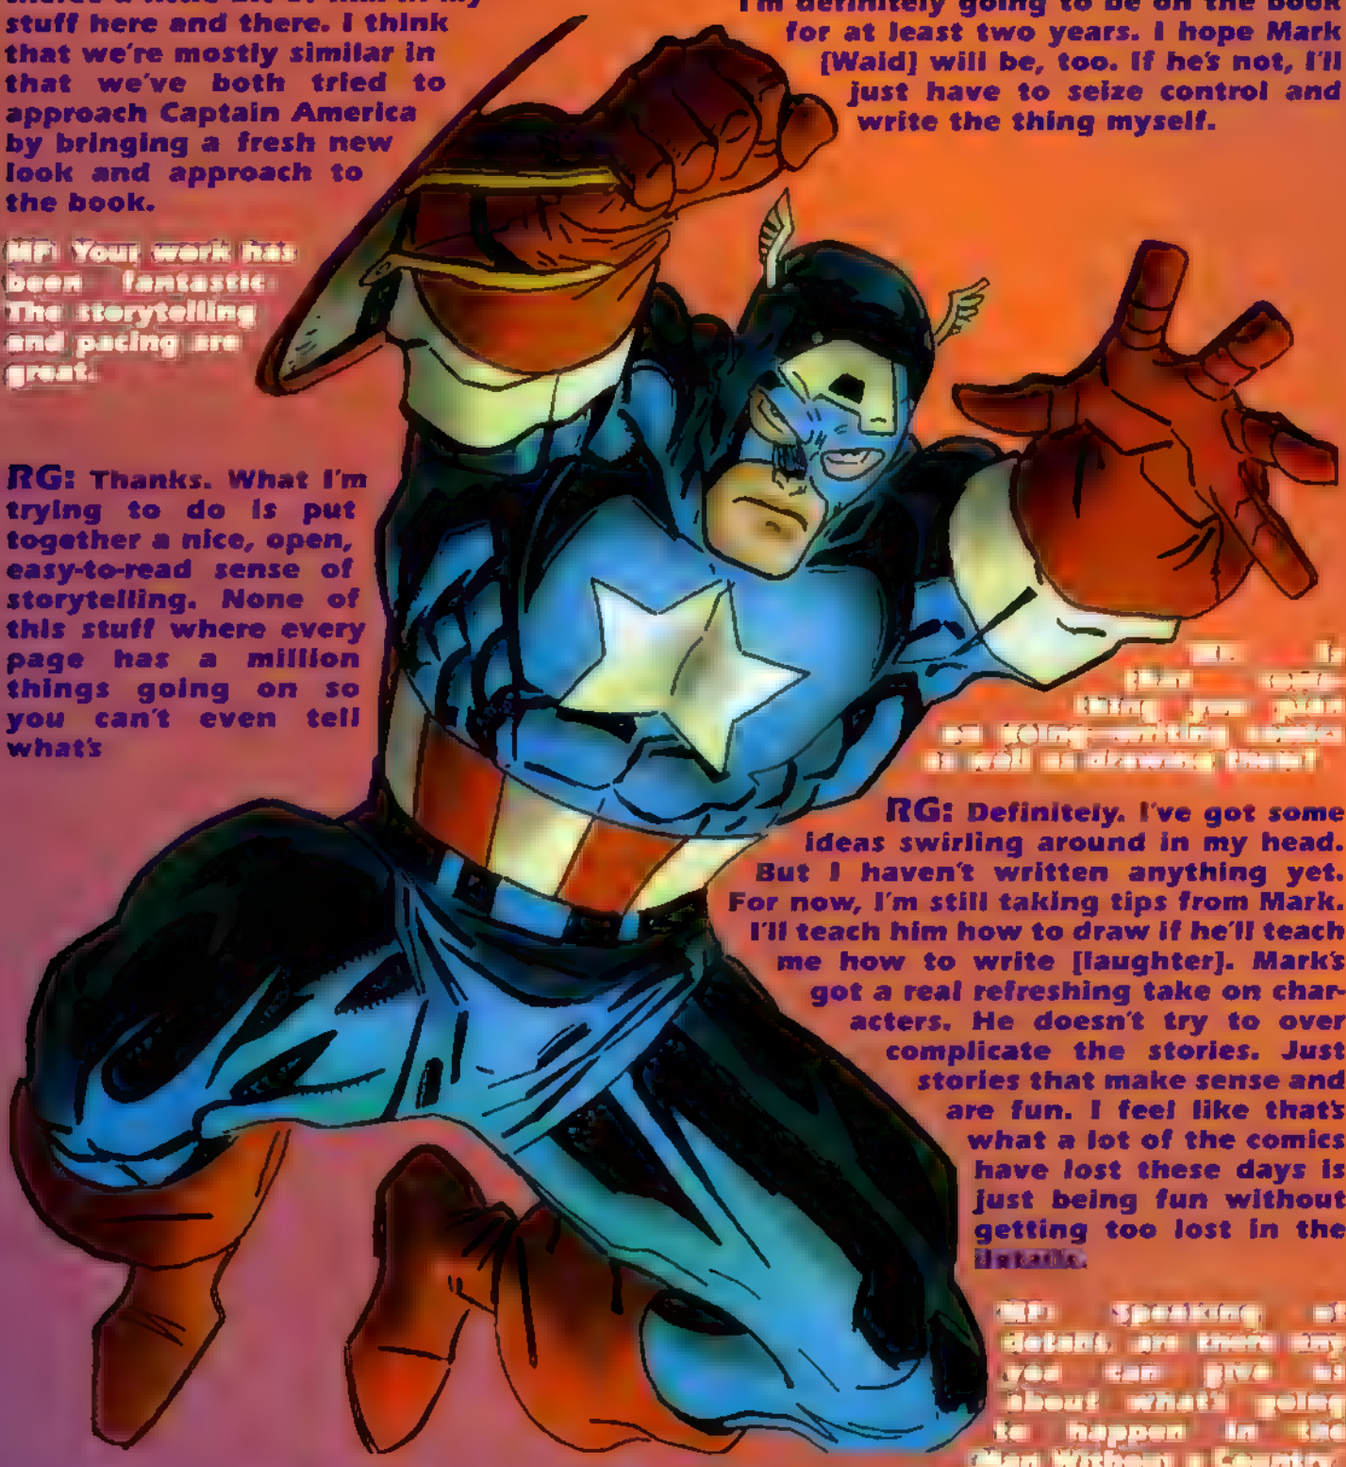
RG: Thanks. What I'm trying to do is put together a nice, open, easy-to-read sense of storytelling. None of this stuff where every page has a million things going on so you can't even tell what's happening. I really get into creating the story and making it work panel to panel. It's like being a director and choosing the camera shots and finding the best way to tell the story. And once you've done that, you can build up to those great, memorable punch shots rather than have them every page. Spread them out so they mean something.

MF: What's your favorite work you've done?

RG: I'm doing it now. CAPTAIN AMERICA.

MF: It definitely shows. Are you planning to stay with the book for a long time?

RG: I'd like to. I'm having a ball drawing the character. And that's the first thing. Then the second thing is the response you get. The response you get can be very motivating. It's been so positive, it's made me want to work at getting even better. I'm definitely going to be on the book for at least two years. I hope Mark [Waid] will be, too. If he's not, I'll just have to seize control and write the thing myself.



MF: Is that [combining your plans on doing writing comics as well as drawing them]?

RG: Definitely. I've got some ideas swirling around in my head. But I haven't written anything yet. For now, I'm still taking tips from Mark. I'll teach him how to draw if he'll teach me how to write [laughter]. Mark's got a real refreshing take on characters. He doesn't try to over complicate the stories. Just stories that make sense and are fun. I feel like that's what a lot of the comics have lost these days is just being fun without getting too lost in the details.

MF: Speaking of details, are there any you can give us about what's going to happen in the "Man Without a Country" storyline?

RG: The U.S. government is against [Cap]. The fact that he has been teaming himself up with somebody like the Skull has made people doubt him and, obviously, in the non-trusting society that we live in, people aren't gonna trust him. That's where the whole "Man Without a Country" thing starts with issue #450. What's probably gonna happen is Cap's going to have to either clear his name or go to jail. Beyond that, I'm just gonna put the zipper on that one and let you find out for yourself.

MF: Is Captain America a character you've always wanted to work on?

RG: Interestingly enough, the samples I brought into Marvel were of Captain America. I've always loved the character. He's got a lot of redeeming qualities to him. He's not just a gratuitous character visually or personality-wise. He's got a

good foundation. Anyone who has read Captain America usually walks away knowing exactly where he's coming from. Not like a lot of other characters where you're going, 'Who is this character? He's got five alter-egos and this and that. I mean, give me a break! Captain America's appeal to me is that he's unwavering in what he believes in. And I think that's really rare with any of these characters. He's one of the characters that you'd have to say, no matter what comic book universe another character is coming from, Marvel or DC, they'd all have to look up to him. I've always wanted to do a character like this and I'm having a ball.

MP: Now that you and Mark have re-established the Red Skull as Cap's main adversary, are there any other major villains we can look forward to seeing?

RG: There's some I want to play around with. A lot of people want us to do something with Crossbones, but I also want to do something different, possibly by using characters like the Silver Samurai. With Cap being out of the country, it gives us the opportunity to explore these other characters who aren't from the U.S.; these characters who aren't the typical Cap villains. I figure, let's try something new, y'know?

MP: Sounds good to me. How do you psyche yourself up to draw?

RG: When I draw a book, I find myself getting absorbed in the character. It's not like I'm sitting in my studio with the costume on or anything. But I do try to really absorb the whole persona of the character. So it's almost like, while I'm drawing the character, I'm kind of acting. I've even found myself making facial expressions for close-ups and things without knowing it. If I'm drawing an angry face, my face looks and feels angry. That's pretty much how it works. You just get psyched. You want to kick butt in this issue. You want it to look great. You want to have fun with it. And you want to make him do all these kinds of different things because that's what you're in control of. Mark writes it. I'm the one who kind of brings it to life. And I think that's the fun part [laughter].

MP: What's the strangest convention experience you've had?

RG: Actually, the first time I went to a convention, I had a few experiences that left me with the impression that, 'Holy cow. This is what I've become a part of?!' In San Diego, I saw this guy, he was about 6'5", and he was with his little five-year-old boy. This big guy was dressed up like Jean Grey from the X-Men [loud laughter]. He had the pumps on and the Phoenix outfit and the hair and the mask and the mascara. And here he was with his little kid. And that kind of threw me. But you see things like that all the time and they're funny. Another time, one of these fans came up to me and, because I work in the field, he automatically thought I knew everything there is to know about every comic that was ever printed. So he asked me about Nosferatu #12 or something and I just looked at him like, 'What the heck are you asking me for? Do I look like a guy who read that stuff way back when?'

MP: And the worst part was that you had, indeed, read it.

RG: [Laughter] Yeah, sure. I was just afraid to admit it. [Writer's note: this is sarcasm. Ron Garney has not indeed read Nosferatu #12, let alone the eleven Nosferatus that preceded it].

MP: How about your best experience in the industry?

RG: There've been a lot. I really enjoy meeting other creators. But probably the best experience was just getting in. I remember being a kid reading Marvel comics (what a plug this'll be) and then, later on, getting my samples together—even being in my late 20s—it still had that kind of charm to it. So when I finally did get in, it was just such a great experience from the getgo.

MP: Good for you! So, in closing, what do you want comic fans to remember about Ron Garney?

RG: That I love liverwurst. I want everyone to remember that.

Clash of the Chosen Ones

Ever since Nate Grey's traverse from the "Age of Apocalypse" into our time stream, fans have anxiously awaited his inevitable confrontation with Cable. It's an all-out rumble when the Chosen Ones collide in X-MAN by John Ostrander, Steve Skroce and Bud Larosa and CABLE by Jeph Loeb, Ian Churchill and Scott Hanna this month. This two-part climactic crossover in CABLE #30 and X-MAN #14 is sure to leave a trail of destruction in its wake.

"These two are essentially the same person and they're about to meet for the first time," explains Mark Powers, Editor of CABLE. Up to this point, Nate has been lost in a haze of confusion and wonder in this new world with hardly any X-Men in sight. That is about to change.

"It becomes apparent that Nate Grey has the potential to grow to the Phoenix's level of power," reports Powers. "That poses a danger and that's when the X-Men have to step in. It's their job to find mutants and help them with their powers and if they're evil, to stop them. Since so little is known about Nate, this situation is no exception."

However, getting close to this interdimensional mutant may prove more difficult than the X-Men anticipate. According to X-MAN Editor Jaye Gardner, "Nate is extremely powerful and because of his experiences with Dark Beast, Sugarman, and Sinister he doesn't trust anyone and won't allow himself to be used. He is basically what Cable would have been if he had never been infected with the Techno-Organic Virus. We've already seen Nate defeat Xavier (X-MAN #10—Tim). Just think what he might do to Cable."

CABLE scribe Jeph Loeb explains, "Before he's twenty-one, Nate Grey's powers might literally destroy him. Since Cable and Nate are two sides of the same coin, Cable is the only one with the power to stop him and he'll use everything to take this kid down. Cable may want to try and reason with him but the question is, how do you reason with a man who possesses the power of a nuclear weapon?"

So what kind of results will a battle between these two powerhouses bring? Jeph Loeb assures fans that the confrontation will be a pivotal point for both sides. "When this battle is over, it will be as important to Cable's life as WOLVERINE #75 was to Logan's. From this point on, everyone that comes in contact with Cable will be affected by the events in this crossover. For X-MAN, and Nate, it will mean a brand-new direction. And although Nate Grey is possibly the most powerful mutant on earth, Cable is the Chosen One."

What would Conan do if asked by an approaching stranger, "Hey bud, I'm really sick of living. Could you kill me?" Before you answer, what if the stranger were 4000 years old and impossible to kill? This is the question Conan must answer in a story entitled "Blade Brothers." The story by Dan Abnett, Joe Bennett and Randy Emberlin introduces Madoc, an ancient warrior who is more than Conan's equal. He is smarter, wiser and stronger. Conan's the greatest warrior of the time as well as Madoc's only hope, so he isn't about to let Conan simply turn and walk away. tries to do just that.

The big event for CONAN THE SAVAGE will be the appearance of The Mighty Thor. Not a Hyborean Age version, nor a dream, this is the genuine God of Thunder. According to writer Chuck Dixon, Thor's half-brother Loki, the God of Mischief and The Enchantress, Goddess of Love, are in Asgard "channel-surfing" the greatest battles throughout the centuries. They're making bets as to the outcomes, when they notice Conan. Impressed by this warrior, the two Asgardian gods wager on the result of a battle between Thor and a Conan bestowed with the powers of a god.

Readers are in for a treat as Dixon explores a battle with what he believes to be the two Marvel characters with "the biggest attitudes." As to the exact outcome of this confrontation and what role Red Sonja plays, Dixon would not say. But he generously offered, "Everything in a Conan story ends disastrously for at least one concerned party."

This story will also be the start of appearances by what Lackey referred to as, "the first of the bad girl characters." He plans to feature Red Sonja in a series of back-up stories in CONAN THE SAVAGE, a prelude to her guest-starring in the color comic. Enrique Alcatena, noted throughout Latin America and Europe for drawing fantasy women, will be handling the art chores for these Red Sonja tales.

As the year draws to a close, readers will be treated to a Hyborean Age version of the Punisher in a tale entitled "Crom and Punishment." If that wasn't enough, readers will discover how successful Conan was at disposing of Madoc when the disgruntled old warrior returns in the two-issue story "Dead of Winter," with art again by Benneti. It features a Madoc even more upset than his debut. And why is he so angry? After all, didn't he want to die? That is exactly the problem. He isn't dead, yet!

Finally the year wraps up with the "all-drunk issue." Conan drunk on page one, all the way to page twenty-two. What else is there for a barbarian to do when he can't even pick a decent fight? But we're sure there'll be a fight in there somewhere.

A special Conan project is also in the works and tentatively scheduled for '96. Simon Bisley is doing a pen and ink adaption of the classic Conan story, "Rogues in the House." This bookshelf novel will be titled "I, Thak." Written by Larry Hama, it will be a unique Conan adventure told from Thak (the monster's) point of view, very much like the classic novel, Grendel.

"BRING OUT YOUR DEAD!"

Editor Lackey and writers Hama and Dixon find a certain freedom in working on Conan that they would not get with other Marvel titles. "There is only one solution to a problem," Hama explained. "Conan's just kills his way out."

"It's refreshing," he continued. "There's no remorse or guilt. The character won't be nailing his hand to his forehead afterwards. It's easier with Conan," Dixon added, "because there are no boundaries. Conan's lines of morality stop at survival." Nowhere is this feeling more evident than in one of Dixon's previous Conan tales. Set on a boat, Conan finds he must continuously feed members of his crew to a pursuing sea monster to stave off its attack before the ship reaches safety.

Much like the Punisher, Dixon finds the same type of dark humor in Conan. "Conan will say something in a situation that is funny, but won't realize it," making the scene that much funnier.

The pages of Conan can also resonate with modern problems which would not be possible within the pages of Marvel Universe books which take place in today's society. "You can do stories highlighting sensitive social issues if you set them 10,000 years ago," Lackey explained. "Like, say, the Aquilonians don't like the Sumerians; we could do a big storyline. We could not do that in a 1990's Los Angeles setting.

"There were lots of plagues that destroyed [illegible]. The Black Plague of the 1400's alone killed 25% of the [illegible]. Conan exploring that and its ramifications, a story [illegible], New York City."

Conan purists need not fear that Marvel is [illegible] made Conan one of the most beloved [illegible] cery characters around for [illegible] concept." "Can't you just [illegible] Marvel continues to [illegible] people so as to [illegible]

WHAT IS GOOD?

on the chin

fabian nicieza

(nee-ste-eh-sa.)

The line stretched a full city block down the San Jose streets during a store appearance. People were waiting for an autograph from me. Half the people on that line had no clue who I was or what I did. The other half either "loved" my work or "hated" it. For the most part, the people who hate your work don't say it to your face, so at these events, you tend to get a day's worth of ego-stroking.

I think that's why so many creative people are so conceited. They mostly hear people tell them that they're "gods." And they begin to believe it.

On the other hand, some chowderhead waited forty-five minutes in a line a few years ago just to tell me I "sucked." I'm quoting here. And then he just calmly walked away.

How can one person in a linethink my writing is "great" and the very next person in line think I'm pond scum? What makes the same comic good in one person's eyes and bad in another's?

The reason is simple and one which many of us have a difficult time coming to grips with — QUALITY IS SUBJECTIVE. As a result, everything we read, think or believe in is based on INDIVIDUAL standards of measurement.

People ask me what I like and I never have a good answer for them. What I like is what I like. That doesn't mean it's what YOU'LL like. In my humble opinion, the comic book medium, from readers to professionals to retailers, all spend far too much time shoving THEIR opinions of good and bad down everyone's throats! Maybe it's just me. But for the most part, I grew up reading super hero comics, so I understand and appreciate their place within the industry, but as I've grown older, I've read super heroes more for the sake of making my job easier than for any real enjoyment value. That doesn't mean I think super heroes are bad. It just means that I'm in a different place as far as my personal entertainment reading habits are concerned (but just so you don't think I'm pretending to be too highbrow or anything, I still read more dumb "Star Trek" novels than I should). Conversely, as a writer, I want to write a lot more than adventure fiction. And I will, all in good time.

Maybe I'm lucky, having worked within the halls of as "conservative" a company as Marvel, because I've seen the merits of publishing BARBIE as well as SPIDER-MAN; Moebius at the same time as FANTASTIC FOUR. As an editor, I knew in my heart that BILL & TED'S EXCELLENT ADVENTURE was better than any X-Book we were putting out at , but I had no illusions that it would sell better.

The super hero genre has dominated this medium for decades. The tidal swell comes in and goes out, causing their popularity to ebb and flow, but I expect they'll remain the mainstay of our industry's publishing ventures. Does that mean super hero comics are better than fantasy ones? No. You have to take them on their individual merits, right?

Geez, if I had a dollar for every adult reader or professional who said, "Super hero comics suck," or, "[Fill in company name here] comics suck," I'd be able to put my kid through Princeton. No genre "sucks" by its very existence. Individual comics within that genre might not be well-done, but that is all still a subjective criteria being used to judge its qualitative merits.

So am I saying that nothing is bad? Yeah. By the same token, I guess you can argue that nothing is good, either. Things are what they are. Words on paper. Pictures on paper. Images on a screen. We, in turn, attach our own individual criteria of qualitative measures to those things.

Let's start growing up, folks. Let's allow people to enjoy what they want to enjoy for themselves. In this industry, we seem to have devolved into a state where, "if we want to hear someone's opinions, we'll give it to them." That ain't what it's all supposed to be about.

I can understand the frustrations of people who have grown up reading comics and now feel the medium doesn't service their tastes. Is it fair that young reader comics can't make a dent in the marketplace? Or romance comics? Or westerns (don't talk to me about that after seeing the less than spectacular retail orders on TWO GUN KID)? Or fantasy? Of course it's not fair. But hey, exactly when did the rules change so that things are supposed to be fair? I must have slept through that day. You don't like the way it's going, then hide from it, cope with it, or get off the planet. Don't make everyone else's life around you miserable.

Am I saying we should keep our opinions to ourselves? Of course not. Spirited discourse requires differing points of view and those who know me know that I loooove spirited discourse. All I'm saying is that we should start being secure enough in ourselves that we can allow others to have their own points of view without feeling they infringe on ours.

Like or don't like, but don't call those who disagree "wrong" or "stupid." To give you an example, I've seen kids vehemently, verbally abused on the Internet because they didn't know who Jack Kirby was. Basically, a twelve-year-old is being blamed for having been born in 1983. Like it's his fault the body of Kirby's renowned work was produced before he was even born? I never cease to be stunned by the lack of patience, the unyielding unwillingness to give that I see in the people within this medium.

Sometimes it saddens me. Other times it amuses me. And regretfully, still other times, I have participated in the very actions I despise. I can handle justifiable, constructive criticism about my work, the industry, or anything else. It's just commentary born of ignorance from people who are old enough to know better that rankles me (all of which is just to prove the point that I'm not sitting here pretending to be perfect either).

So what do we do tomorrow? Here's a suggestion, which I'm going to try myself — have something GOOD to say about a comic book. And for one day at least, try adopting the adage, "if you have nothing good to say about something, say nothing at all."
